

Parish Photography Policy: Use of Images

St Paul Parish may publish photographs and video recordings made during our services or events. We may make these images publicly available on our parish website, our official public Facebook page, our Google search page and occasionally on pages managed by the Orthodox Church in America and the OCA Diocese of the Midwest.

As we do this we have two goals:

First, we want to be welcoming to inquirers and visitors by showing them the church and parish life they will encounter when they visit.

Second, we want to be very careful and very respectful of anyone's wish not to be pictured on the internet.

A.) We will never identify by name any layperson in a photo or video without their consent.

B.) We have an opt-out form (available on the next page) to alert us that you don't want us to use any image of yourself or your children. If you complete and return it to the parish secretary (office@stpdayton.org) we will be happy to follow your wishes, and will not include the specified people in any published content.

C.) If at anytime you would like us to remove an image of yourself or your children please notify the parish webmaster (webmaster@stpdayton.org) and we will remove the image at once.
